FOR THE GIRLS

This is intended strictly for single girls between the ages of 18-25 so the rest of you can just skip over to the next item because this won't interest you at all.

Now to those of you who are still with us, we want to talk about the contest the Upland chamber of commerce and the Grove theatre are running to select a very beautiful candidate for the title Orange Show Queen. In case you missed the story a few days ago, the contest is now open and any girl who is a resident of Upland, single and between the ages of 18-25 is eligible to compete. All you have to do is submit your name either at the chamber office or at the Grove theatre.

Here's some encouraging news for some of you gals who aren't quite sure just how to prepare yourself for the judging. A beauty expert from a very famous company will personally make-up all the contestants. So, whether you win or not, there's a chance for you to get some free beauty hints and what girl isn't interested in that. Then, too, there's another angle. Win or lose, this will be good training for any young lady who is interested in a career as a model or actress because it is bound to develop poise and personality.

The winner, besides getting an opportunity to compete for the Orange Show Queen title, will also receive gifts from Upland merchants. A lot of valuable merchandise is promised by Andrew R. Morrison, chamber secretary, and Ben Adams, who are in charge of the arrangements.

So, girls, you don't have anything to lose. You won't get this experience sitting in the audience but on the stage with the rest of the contestants. Just turn in your name either to the chamber office or the Grove theatre.

ALL WOMEN

It isn't very often that five relatives show up at a wedding anniversary but that experience was enjoyed recently by Mr. and Mrs. J. L. MacPhersons of Alta Loma. To make the whole affair even more unusual all these out-of-town relatives were women and widows.

The son and daughter-in-law of the MacPhersons, both of them employed on a Hollywood newspaper, later joined the group for a Sunday party at the home of another son, John, in the desert. It was a nice way for the MacPhersons to celebrate their 35th wedding anniversary.

PRETTY HAPPY

Judge Mildred R. Puckett of the Upland city court is pretty excited about her trip to Berkeley this Sunday to attend traffic classes. Many prominent national experts are slated to be on the program and the judge says she wants to "learn the latest". So drivers from now on better be careful because you never know what ideas she's liable to come back with.

DICK PEHL

We still don't know whether it was us or those darn "type lice" that did it but we want to apologize to Dick Pehl for misspelling his name yesterday. At any rate, we know he's going to do an outstanding job training the Cub Scouts for their bouts next month.

CONFUSING

Although bringing joy to the majority of residents of this area today's long awaited rainfall threw the department of aeronautics of Chaffey college into slight confusion.

It seems a representative of the Civil Aeronautics association was expected to visit the campus today and plans had been laid for a hearty welcome and inspection tour of Chaffey's facilities. However, the rains came, forcing the representative to cancel his planned flight. At last report Chaffey officials didn't know whether to go ahead with welcoming plans or not.

Inflation Break Seen As Market Nosedives

Heavy Selling Hits Grain Pit; Stocks Decline

By The Associated Press

NEW YORK, AP — Commodity prices nosedived again today for the second day in a row.

Soon after grain and other commodities plunged under heavy selling, President Truman said prices are rising so alarmingly that a crash is inevitable unless something is done to halt them.

LOS ANGELES, AP—Declines in the nation's commodity and security market were viewed today by Joseph M. Dodge, president of the American Bankers' association, as a warning to the public of the "completely unrealistic price structure on which the country has been operating.

The stock market, weak yesterday, resumed its decline but at a slower rate.

Losses in wheat and corn ranged to 10 cents a bushel as selling flooded the Chicago grain pit. Yesterday wheat for future delivery dropped the 10-cent maximum allowed in a day's trade at Chicago, Minneapolis and Kansas City.

Moderate selling in the New York stock exchange lowered prices a few cents to around $1 a share.

Lard at Chicago lost 2 cents a pound, the most allowed.

Cotton at New York skidded around $3 a bale, then rallied slightly. Cottonseed oil dropped the 2 cent maximum, and lower prices were posted for sugar and grease wool.

Grain prices are the key to the entire commodity price structure, according to a widely held opinion among economists and businessmen. A break in grains, they

$37 Billion 'Ceiling' Voted

WASHINGTON (AP)—A Senate-House budget sub-committee voted today to try for a $37,200,000,000 ceiling on government spending in the year beginning July 1.

Chairman Bridges (R-N.H.) said this will mean cutting President Truman's $39,700,000,000 budget far more than the $2,500,000,000 slash which the committee set as a goal yesterday.

Bridges explained the ceiling will include any additional requests of the President for funds, as well as any spending Congress authorizes on its own.

TRUMAN

Warns Crash Inevitable If Prices Go Up; 'Standby' Rationing Urged

WASHINGTON (AP)—President Truman said today price rises since he urged standby rationing and price controls show the absolute necessity of such measures.

If some way is not found to check the spiral, he told a news conference, the nation's economy will come down in a crash. That, he added, he does not want to see.

Mr. Truman discussed a dozen or more subjects, all in reply to questions. Among other things, he said:

1. The Republican move in Congress to cut his $39,700,000,000 budget will get nowhere. Just, he said, as it did last year.

2. He based his Civil Rights recommendations only on the constitution's Bill of Rights. This was in reply to a query whether he had also considered suggestions for protection of Americans from "slanders and smears" from congressional committees.

Mr. Truman had no comment on the attacks Southern Democrats have made on the 10-point civil rights program he proposed to Congress on Monday. Such comments are being made in the press itself, he said.

Discussion of price controls started when a reporter asked what he thought about meat rationing. The President said he is still in the same frame of mind as when he recommended standby controls last November.

He showed reporters a graph indicating price climbs in all cost of living items since November, including rents. He said he is going to keep telling Congress what the situation is, although it has the same information he has.

He then added that a crash will come if something is not done to halt the rise.

Upland Red Cross Quota Set At $6,310

A figure of $6,310 has been set as Upland's quota for the 1948 American Red Cross fund campaign which will get underway on March 1, according to Mrs. W. Leland Scheu, chairman of the local chapter.

The funds which the committee hopes to raise are necessary to finance community as well as national and international projects of the Red Cross, Mrs. Scheu said.

Of the quota, $3,300 will be sent to the national organization and will be used to replenish the disaster fund.. The past year was the most costly to the American Red Cross since 1937, and funds are seriously depleted.

In addition to disaster work, the Red Cross embarked upon a blood bank program which will eventually supply blood and its derivatives without charge to anyone who needs it.

Three thousand and ten dollars will remain in the local chapter. During the past year, the home service committee handled 249 cases. Veterans and their dependents numbering 108 were given assistance with family and personal problems, and aid in the preparation of applications for government benefits, with a total of $2,130.60 being spent for financial assistance.

To map plans for the local campaign, Mrs. Scheu and Vernon Patterson, fund campaign chairman, will attend a regional conference of 64 chapters to be held Feb. 10 at the Biltmore hotel, Los Angeles.

Among those present at the conference will be James T. Nicholson, Red Cross general manager and vice-president, Washington, D. C., and Ramon Eaton, Red Cross manager of the Pacific area, San Francisco.

These figures, and others pertaining to the health and welfare of the community's citizens, are revealed in the annual report of the Ontario health department submitted to the city council this week.

More male babies than female were born to Ontario parents in the year, the report reveals. Hospital records show 279 male births and 240 females.

Heart disease was by far the largest killer, death records show. Sixty-four deaths were attributed

Upland Chamber To Consider Sign Uniformity

A uniform policy on the maximum distance that a sign should extend from individual buildings over the sidewalk will come up for consideration when the committee on business relations and promotion of the Upland chamber of commerce meets tomorrow morning at 10:30.

In making announcement of the meeting today, Andrew R. Morrison, secretary-manager, requested that all members of the committee leave word at the chamber office as to whether they will be able to be present or not.

The chamber was requested recently by the Upland planning commission to study the matter of uniformity in signs and make its recommendation to the planners as soon as possible.

Two other important matters coming under consideration of the promotion committee which is headed by C. Dean Miller include (1) what to do with the reserve fund and (2) new business promotion plans.

The meeting will be held at the chamber office and will be in charge of Chairman Miller.

City Welcomes Showers; More Seen Tomorrow

The West End, in common with all Southern California, luxuriated in rain today.

Storm clouds which have drenched the state from end to end, reached Upland at 10:12 o'clock last evening and precipitation was steady throughout the night and early morning hours.

By 7 a. m., .91 of an inch of rainfall had been recorded at the Liberty Groves operating company.

An additional .32 of precipitation was recorded at 1:30 today, bringing to 1.23 the total rainfall since the showers began last night.

Mid-morning saw a slackening of the showers and a brief period of sunlight. But the clouds soon closed in again and the drizzle resumed. Sleet and small hailstones fell in Upland streets for a few moments about 1 p. m.

Last night's rain brings the total for the season to 3.99, as compared with 17.94 for the same period last season. Total rainfall for the 1946-47 season was 20.68.

Citrus men in Upland, Ontario, Cucamonga, Alta Loma and other southland communities welcomed the long-awaited rainfall, which is expected to continue at least another day and possibly longer.

The "dry spell" has been threatening not only groves and other farms in this area but has seriously curtailed water resources of many communities. While Upland reserves are sufficient for this year, heavy rains would forestall any possibility of serious water shortages in the future.

LOS ANGELES (AP)—Rain approaching an inch broke a record midwinter drought in Southern California today, and the weather bureau forecast more through tomorrow.

Copious showers fell on parched soil throughout the citrus and agricultural districts. Snow began to pile up in the mountains and there were hopes that the driest period in 70 years was at an end.

Hundreds of householders in scattered districts awoke to find telephones and electric power out of order, but emergency crews hoped to restore service shortly. Water creeping into bone-dry transformers and lines was held responsible.

Pasadena and Arcadia, with a .98 of an inch by 8:30 a. m., were the wettest points. Snow was falling throughout the mountains, with Big Pines reporting from eight to 15 inches on the ground; Camp Baldy, eight inches; Arrowhead, 11; Big Bear, 11-23 inches; Chilao Flats, eight.

Parched ground quickly soaked up most of the rainfall and there was little runoff in any sector. Foresters happily reported a welcome drop in the fire hazard, which has had crews on unusual winter alert.

UPLAND ROTARY

Fight Red Propaganda In Plants Free Enterprise In Danger - Pryne

Warning that "free enterprise" is in "grave danger", Ralph Pryne, president of Pryne & Co., in Pomona, yesterday called upon management to "counteract communist propaganda" in their plants and shops in order not to lose the liberties "bequeathed to us by our forefathers".

Speaking to the Upland Rotary club, Pryne said that there seems to be a basis shift in American thinking. The pioneer spirit which built this country has been running out and "dependence socially has become respectable".

The communists are actively seeking to establish a collectivist economy in America, he charged, and the United States today is an "island of free enterprise in a sea of collectivism".

He defined free enterprise as "your privilege to choose your own job, your right to quit that job, your right to express an opinion on your job, your right to express your opinion of your boss and your right to go into business for yourself".

"I mighty few other countries do you have that right," he declared. "Even today in the United States free enterprise is in grave danger—in danger of being replaced by collectivist economy."

Quoting from the instructions manuel given to communist party members, the speaker said that Reds seek the overthrow of the free enterprise system and substitute in its place a "Soviet America".

Ellery Wright, program chairman, introduced Pryne, while Paul Hottel, president, was in charge of the meeting. Ontario visitors included Tex Illingsworth, William Stover, Frank Biane, Ben J. Vizio, Tom Titus, Tom Morgan, R. Fred Price, Vern Pittinger, Charles Latimer, Harold J. Martin and Tony Moertel.

Those present in addition to those named were Dino Papavero, Al Cinque, Jerry King, George Patrick, Walter Riddle, Bill Wise, Omar Brubaker, Tom Cooley, Larry DeLong and Dwight Wentzel and L. R. Waldo, the latter two faculty sponsors.

The retiring army chief of staff told the National Press club that Russia "is in no position to fight a global war" now.

say, will be immediately felt throughout the economy.

A. W. Zelomek, editor and economist of the International Statistical bureau, a private research organization, said today's break might be the turning point in the long road to inflation.

Prices are even more vulnerable now than at the end of the first World War, Zelomek declared. The most recent upward rush, he said, was based mainly on two things: First, that this country would give, lend or sell to the rest of the world everything it asked for; second, many so-called shortages are turning out to be non-existent.

Zelomek predicted that a pronounced price break might release a hoard of vitally needed goods which are now held by jittery speculators who have kept them hoping for a future rise.

Petition Being Circulated At Chaffey Could Be 'Dangerous'

A petition is being circulated at Chaffey by interested teachers stating in effect that all educational policies be established by the school administrators and that the superintendent's contract which expires this year be renewed.

No one can question the right of any American to petition or express his opinion at any public meeting and this certainly includes school teachers. But when there is any danger that such a petition could result in bringing unnecessary "pressure" upon any group then some doubt can be cast about its underlying purpose.

We do not pretend to know the "feeling" of every Chaffey teacher but it does seem that for any teacher to refuse to sign a petition endorsing the school administration would be a pretty risky personal proposition. In the event that the superintendent's contract is renewed, it can readily be seen what the position of a "non-signer" would be as far as his future at Chaffey is concerned.

The last sentence in the petition supporting the present Chaffey head has more or less been added as a "rider" to a principle of education on which many teachers may be agreed. In other words, a person might very well be heartily in favor of having the school's policy in the hands of the administrators and be against the person now doing the "administering".

The matter of whether Gardiner W. Spring is to be retained as superintendent of Chaffey is entirely up to members of the board who have been duly elected by the people in the Chaffey district.

While teachers have every right to be heard in a democracy, it is the general public, taxpayers in the main, who through their school boards make the final decisions. Parents have the right to determine whether an educational institution supported by them is properly educating their children.

The voting public in the Chaffey district apparently was not completely satisfied with the "Chaffey situation" and for that reason elected two new members to the board at the last election. That the board is aware of this has been evidenced by its insistence that department heads report their activities directly to them and that a fuller "explanation" of the administration's policy be made. It is quite obvious that neither the majority of the trustees nor the people who elected them are completely satisfied with what has been done at Chaffey the past few years. The board certainly has a right to investigate and find out "who" is responsible for this dissatisfaction so that they can take the necessary action accordingly.

Petitions by teachers are not going to solve anything as far as the citizens of Upland and Ontario are concerned. They want to know the real facts and they have vested the power for action in their board when these facts are finally uncovered.

Whether the teachers' petition will finally be presented at an open meeting or not, we do not know. But if it is, we are confident that the Chaffey board will consider it for what it is worth, keeping in mind the feeling of the taxpayers in the Chaffey district who make Chaffey and all it stands for possible.

While we believe it is very timely for an open discussion of the Chaffey school problems and the question of re-employing Mr. Spring, may we emphasize there is no place in our educational system for "politics".

Mackenzie's Column

By DeWitt Mackenzie

AP Foreign Affairs Analyst

The British government's action in calling on the country for a voluntary freezing of wages, profits and prices in an effort to combat inflation is at once a warning of the gravity of England's economic crisis and an exhibition of spartan determination to win through.

There would seem to be no question of ideology involved in this daring and drastic move by Britain's socialist regime. It's a matter of survival, and Prime Minister Attlee himself presented the case to the House of Commons after consulting both trade unions and organized employers.

It is a tribute to the long-suffering British public's spirit of cooperation that Mr. Attlee felt able to lay such a proposition before it. The nation has disciplined itself to endure a fierce austerity of life during the long fight against inflation. The prime minister is trusting to this discipline.

One suspects that the government's anxiety relates not so much to the present moment as to a dangerious period around the first of June. The experts tell us that Britain's gold and dollar reserves will be exhausted by about that time. That could produce a grave situation, failing outside help, and the government obviously would be most unwise to bank on the Marshall plan while that project is still under discussion in Congress.

So with maybe four months to go before the monetary reserves run out, Attlee is taking time by the forelock in trying to inaugurate his startling program to protect the value of the pound sterling and prevent inflation. Should this fail, and should no assistance be forthcoming from outside, England would be reduced to the expedient of barter trade with the result that her position as a world power would deteriorate rapidly.

Such a contingency raises another problem which is of world wide import and especially to the United States. Apropos of this the U. S. State department a couple of weeks ago presented to Congress a summary of the European political situation prepared by Truman administration agencies. These analyses showed, among other things, that American foreign policy makers believe if Britain should fail to regain its world position, the "stabilizing influence which it has Heretofore exercised in many strategic parts of the world would be lost and the adverse effects on the interest of the United States would be incalculable".

Well, what would happen if Britain failed to regain her world position? The answer is that a vacuum would be created in the many strategic areas which she has dominated through the generations—the vital Mediterranean area, for instance, the Middle East and on into the Far East.

That vacuum couldn't long exist. It would have to be filled—and there would be only two great powers from which destiny could make a choice. One would be Russia and the other would be the United States. As the signs now read, the Soviet Union would be tickled to death to supplant mighty Britain, while the United States neither wants to fill such a void nor does she wish to see Russia do so.

Thus this new Battle of Britain assumes a vast importance to every nation of the globe.

CHAFFEY CHATTER

From the action we saw last Friday afternoon at the Chaffey gym, we have a basketball team that we can be proud of. The Tiger quintet took the ball early in the game and never lost the lead. The cheer leaders gave us some extra-snappy routines and the band had some swell new numbers worked up.

The senior class seems to be busily underway preparing its class play for February 20th. The annual presentation is to be a comedy-mystery called the "House of Horror." Eleven seniors have been chosen from among 75 trying out for a part in this exciting play. The cast will include: Peggy McCollough, Barbara Stout, Maxine Blesent, Carol Andrews, Henry Turner, George Campos, Charles Birdsall Richard Stensgaard, Juanita McLaughlin, Darleen Johnson and Fred Finlayson. Pat Powell and Bill Crooke are still competing for the part of Guppy, an odd character who isn't quite all there. The play is being directed by Miss Gretchen Lizer and promises real entertainment for us all.

Last Friday Mrs. Hawkinson's second year Latin class was enlivened by a re-creation of the gay days of Caesar and Augustus. Everyone threw himself into the play wholeheartedly. Bill Anderson made a fine Caesar, enacting the death scene most realistically. Marian McLellan was an alluring Cleopatra, charming all the men, but coming to no good end as she died with Mark Antony. Poor Pompey lost his head—literally. Everyone was sailing the sea in boat-chairs. Sam Frank as Augustus went to battle with great bravery. Most everyone died a violent death, and a hilarious time was had by all. With Mrs. Hawkinson at the helm Latin and Ancient History can be fun!

Social Note: Peace Reigns In Bay Area As Oak Officials Hosts To Seals At Tea

OAKLAND, AP—Society note for the sport pages:

Owners of the Oakland baseball club gave a luncheon yesterday. Their guests—the part-owner and officials of the San Francisco baseball club.

In the course of the get-together, Clarence "Brick" Laws, Oakland president, said his club needed two or three pitchers. He also said the Oaks would have the strongest outfield in the Pacific Coast league in Les Scarsella, Lloyd Christopher, Brooks Holder and Maurice Van Robays.

Frank "Lefty" O'Doul, manager of the Seals, went him one better. "The Seals," he said, "will be as good as any club in the Coast league this year. We're set except for a pitcher or two."

Seals President Charles Graham declared it wasn't true that San Francisco didn't want to play night schedules in Sacramento.

Rumor, backed up by "usually reliable sources," has it that the 1948 Stanford Indians will be greatly helped if and when Chaffey college stars Ansel McCullough, Don McCullough and Bill Luman, enroll at the farm this fall. Orland Deciccio, the flashy and hard running back who scored three of the Panthers' t.d.s in the never-to-be-forgotten scrum with the Cameron Aggies in the Rose Bowl, is having to make up his mind on the same subject. We almost forgot our buddy from Corona, Chester Nicholson, the demon end, who is also slated for Stanford, according to reports.

One thing is sure if these local boys do decide to attend Stanford university, and it's this: They will be under one of the best coaches in the country, Marchy Schwartz. Marchy was a truly great All-American for Notre Dame when all-Americans meant much more than the "Heinz variety" of today.

Just to give you an idea how much the powers-that-be at Stanford think of young Marchy, and knowing how coaches are having their heads lopped-off every year unless they beat the traditional rival, Siwash, Marchy lost games like nothing last year, although giving their big rival, Cal, double-fits before being beaten. Anyway, the officials at Stanford not only gave Mr. Schwartz a new contract but also a healthy hunk of dough in addition in the form of a raise. To us, that was the most sporting gesture made by any school in the P.C.C. to date, and well worth it, 'cause we think that Stanford will be tougher than an old boot come football time.

Bob Sachs, the end that plays football like Walter Mitty and the rest of us would like to play it, is still flitting around the top of the fence, not having definitely committed himself as to where he's going to go, but I'll give 8 to 5 that it's U.S.C.

One thing is certain, and I think that I speak for all of the numerous fans that watched these swell guys bring so much credit to Chaffey and to themselves, by saying that we all wish them every success, regardless which school they may choose, and for the most part of us, we'll be watching the sport pages to see how they make out. We think you'll do 100% Okay.

Other players from surrounding j.c.s are likewise having the "flirtation act" put to them. Frank Munoz, the Player of the Year from the Fullerton Hornets, has been reported gobbled up by U. C. L. A. Jack Pickering, the tough blocking back from the Santa Ana Dons is looking over U.S.C. Several potent players from the Riverside Tigers are also geared for a Trojan suit. It will be fun to watch them next year, won't it?

Cellar Teams Visit Chaffey

The cellar-dwelling cage teams of both the CBL and OEC will visit Chaffey tomorrow.

At three, the winless Redlands Terriers go against Coach Karl Kaiser's Tigers in a game expected to provide victory No. 6 for the locals.

At eight, the Citrus Owls take the court against Harvey Shirk's Panthers. The Azusans haven't won a league game in three tries, and were pretty badly mauled the last time out.

Santa Ana's Dons trampled them 74-33, in a runaway ball game at Santa Ana. On compartive scores, that should give the locals a big edge. Chaffey, you'll recall, bowed to the same outfit by a two-point margin, 61-59.

Starting line-up for the Owls is expected to find Tolle and Carter at the forwards; Meyers at center, and Sherer teaming with either Walker or Lobb at guards. Carter, lithe shotmaker, has held scoring honors in most of the contests to date.

In a highly important OEC contest, the unbeaten Dons will invade San Bernardino tomorrow. The Mt. Sac-Fullerton battle at Fullerton rounds out the slate.

Riverside, currently the loop leaders, draws a bye.

Some important CBL tussles are on tap, too.

Colton, who made a good try at toppling the Poly Bears two weeks ago, will have at it again in a game on the Colton floor.

Pomona, who suffered a thunderous defeat at the hands of the Berdoo Red Birds earlier in the season, will get their chance for revenge.

That one is being played at Pomona.

ARCADIA, AP—Johnny Lindell, hard-hitting New York Yankee outfielder, is a holdout.

U. S. Team In Rally; Move Up To Sixth

ST. MORITZ, Switzerland (AP)—The swishing skis of Mrs. Gretchen Fraser brought America its first championship in the fifth winter Olympics today. The 28-year-old Vancouver, Wash., housewife sped to victory in the women's special slalom.

Outclassing Europe's masters in their own specialty, the tiny west coast star made two brilliant, zig-zagging descents over the precipitous Alpine course in one minute, 57.2 seconds.

The victory—following her second place medal in yesterday's Alpine combined event, consisting of both downhill and slalom skiing—was one of the biggest upsets of the current games.

Other American entries—Andrea Mead of Rutland, Vt.; Paula Kann, of North Conway, N. H., and Brynhild Grasmoen of Merced, Calif.—finished far back.

Another American — daring sledder Jack Heaton of New Haven, Conn.—finished second in the suicidal Cresta (skeleton sled) runs as the United States staged a rally in the carnival that has been dominated by Scandinavians.

The men's counterpart of the slalom went to Edi Reinhalter of Switzerland as the Swiss forged in front of Sweden in the race for team honors. Heinhalter had two dashes down the mountainside in a total of two minutes, 10.3 seconds.

The Americans' good showings vaulted them back into sixth place in team standings.

Also, they stood to better their record later in the day with young Dick Button of Englewood, N.J., in the figure skating finals. Already ahead after the difficult compulsory figures, the 18-year-old skating artist was figured a cinch to breeze in on his free style skill.

The United States suffered one reversal, however—in the unofficial hockey tournament. Canada virtually knocked the U. S. Amateur Hockey association team out of the title running with a 12 to 3 rout.

TIGER CINDERMEN ROUNDING INTO SHAPE; FULL SCHEDULE ANNOUNCED

Early workouts this year have put the Chaffey Tigers into "pretty good shape" for the track season which begins with the Brea relays March 5.

Coach Truck Lindsey, taking cognizance of the weather, called practice early so that the high school cindermen could get in their warmups before the rainy season set in.

Although four high point winners have been lost due to graduation, Lindsey said that most of the 150 who are out for track this year are showing signs of developing into good material. The star performers last year who between them accounted for 27 points in the CBL finals were Jim Hayes, in the 100, 220; Vyreen Eberley, 880; Al Ashurst, mile, and Bob Wayde, high jump and low hurdles. None of them will be back this year.

However, some of the boys from last year's squad who seem promising are: Beck, 100, 220; Bartholomew, 110, 440; Ruckerand and Morris, 440, 880; Gomez, mile; Palmer Spear and Russel Young, high hurdles, and Fram, Hefter and Morris, low hurdles.

In the field events, Bernard Hoyos and Danny Henry seem to be the strongest candidates in the pole vault; Flynn Ziegler, a Negro lad, Clarence Michaels, Martin Johnson and Lowell Havener, high jump; Hoyos and Marquez, broad jump; Jim Vick, Wayne Shell, Cookie Orsburn, Don Mueller and Bill Casler, shot-put.

A considerable number of newcomers are out for the team this year, Truck said, and many of them look to develop into good track men.

The complete track schedule for the Tigers as released by Coach Lindsey today follows:

March—
5—Brea relays
10—John Muir, there
13—Long Beach relays
17—Pomona, here
20—Huntington Beach
April—
2—El Monte relays, ABC

14—Riverside here, ABC

24—Chaffey Invitational

G. E., LEGION, SMOKEHOUSE VICTORS IN CITY LOOP GAMES

General Electric, Legion and the Fontana Smokehouse posted wins in last night's city league cage play.

The G. E.'s had by far the easiest time of it. Opposing the hapless Fontana Snorters, the electric boys really poured it on to triumph, 54-15.

The unbeaten Legion had to battle all the way to squeeze out a 33-30 triumph over a stout-hearted M. K. Smith five. The Smokies won their game in handy fashion, 43-23, from POA.

Gets Estate

CHINO—One-third of the estate of Dr. W. W. Fenton, former resident of San Bernardino, was presented last week to Casa Colina and the crippled children to whom he devoted so much of his time and thought while living, in the form of a check for $13,784.20.

Coffee houses in 17th century England sometimes advertised themselves with signs made of ceramic tiles.
